Notes:

¹Assumes that the Baseline percentage of cancellations and delays on good-weather days also occurred on poor-weather days at SFO, with the remaining cancellations and delays due primarily to the effects of poor-weather conditions at SFO.

²Includes weather-days classified as "Other".

³Baseline reasons include, among others, aircraft mechanical problems, crew availability, flight scheduling, en route weather conditions, weather at other airports in a flight's itinerary, and air traffic congestion.

Percentages may not sum to totals due to rounding.
